## 2006/1001

### CONSTRUCTION INDUSTRY SCHEME (CIS) : GET SET FOR APRIL 2007

The new Construction Industry Scheme will come into force in April 2007, and it affects all subcontractors (not just those in the building trade).

There are three key changes:

- Cards and certificates will be replaced by a 'verification' service to confirm whether a sub-contractor should be paid gross or net.
- Instead of issuing vouchers, contractors will make monthly returns and issue pay statements.
- The monthly return will include a declaration that the contractor has considered the status of the workers on the return and that none of them is an employee.

Mailings will commence in November (to contractors, with provisional details of sub-contractors who do not have to be verified). In January Contractor Guidance Packs will be sent to all registered contractors, whilst during March/April sub-contractors will be advised of their details held on HMRC files.

For more information about the rollout, please click ([here](#)).

Pegasus do have a CIS solution that can help with the above, and it is worth mentioning that they have special offers available until December. If you would like to discuss the Pegasus CIS solution, please contact your Sales Manager on 01206 711 451.

### VAT CHANGES

We have been advised that there are to be VAT changes scheduled for next year. As soon as we have received further information as to how this will affect your software we will let you know.

### PEGASUS OPERA II : RELEASE OF V5.00.00

You will no doubt recall that in our August Newsletter we announced the release of v5.00.00. At the same time we said that we would be undertaking quality assurance trials before releasing the software.

A number of issues have been identified such that, whilst the software has significant new facilities and advanced processing, we will only be releasing the upgrade on a selective basis at the moment.

### STOP IT!

We hope that you find our e-mailed information sheets of direct help to you and your business. However, if you wish to remove your name from the mailing list or make changes regarding recipients, please contact John Stannard, Support Department.

Computerwise Limited is now part of a much larger group with offices in Bromley, Colchester, Portsmouth, and Wimbledon.

This structure provides you with the stability and expertise that a large company can offer whilst coupling it with the care and responsiveness exercised by a smaller concern.
