2006

2006/1201

HAPPY CHRISTMAS!

The Management and staff at COMPUTER wise and our sister company TMB solutions wish you all a,

together with a healthy, and prosperous New Year.

Computerwise Limited is now part of a much larger group with offices in Bromley, Colchester, Portsmouth, and Wimbledon.

This structure provides you with the stability and expertise that a large company can offer whilst coupling it with the care and responsiveness exercised by a smaller concern.

CHRISTMAS SUPPORT

We will be providing full cover during the Christmas and the New Year period, although this will be with reduced staff numbers. The service will extend to software support, network management, and engineering cover.

We will close on Christmas Day, Boxing Day and New Year's Day.

HOW LONG IS A YEAR?

You will be aware that it is the Pay Date (the point that pay comes under the control of your employees) that determines the Pay Period to be used, and not when the payment was earned, nor when the pay was calculated.

This financial year presents a number of issues, and perhaps paramount amongst these are that with Easter falling on 6th-9th April, and most weekly payrolls use a Friday Pay Date, the majority of firms will find that they need to operate a 53 week year in 2006-7.

In Opera II pay periods are controlled directly by the internal payroll calendar, and currently you will not be able to "force" a week 53 situation. The Opera II payroll releases (v4.20.00 and v5.10.00) will allow you to overcome this position, and we will issue full details in due course.

STOP IT!

We hope that you find our e-mailed information sheets of direct help to you and your business. However, if you wish to remove your name from the mailing list or make changes regarding recipients, please contact John Stannard, Support Department.
